Several petitions are expected today - one is being dropped off now. One came in this AM but we had to return for incompleteness. South Park's mail usually comes in between 3-4, so I should have a batch to send shortly.

The largest owner (nearly 20%) sent me an update an hour ago saying that they are close to executing and will keep us posted.

No word yet from CM Price's office on waiver but I've dialed in CD14 staff hoping they can assist.

Ed says he'll have the ER done this afternoon, so I expect to send you everything today, although it could be after 5 pm.

Thank you to all.

Ed just got me ER. I'm working on MDP now. Thankfully dbase is done and is attached here. The only change since yesterday's version is the table on the 4th tab that shows the general benefit allocation (I just had to update that now from Ed's ER.)

MDP and ER arriving soon, but probably a little after 5.
